

PRODUCT MARKETING / TECHNOLOGY / DELIVERY

Dawit Feleke

I translate complex technology into clear stories, useful systems, and work that moves people to action.

POSITIONING

PRODUCT MARKETING SPECIALIST / TECHNICAL PROJECT MANAGER

My strongest work sits between product, technology, operations, and communication. I am comfortable entering a complex delivery environment, understanding what is being built, clarifying who it is for, and turning the work into a clear plan, story, campaign, or usable system.

WHAT I BRING

Make technical value understood.

At Eagle Point AI, I worked inside AI training-data operations and helped build and deploy Akilla, an internal workflow monitoring tool. At Pinnacle AI, I co-own the agency with a 25% stake, manage client delivery, support B2B campaigns through HubSpot, and co-develop deployed business systems. Across Headway, Bana Records, and independent web work, I have repeatedly connected product decisions, audience needs, teams, and last-mile execution.

25% PINNACLE AI OWNERSHIP	2-3 DEPLOYED INVENTORY SYSTEMS	3 CONCURRENT CLIENT ENGAGEMENTS	40 PEAK EAGLE POINT TEAM

SELECTED MARKETING, TECHNOLOGY, AND PRODUCT WORK

NEXT LEVEL MARKETING AND COMMUNICATIONS / HEAD OF MARKETING AND COMMUNICATIONS / FEB 2026 - PRESENT

Lead the message and the web presence.

Lead marketing managers responsible for product and service promotion while managing B2B and client communication with ambassadors, delegates, shareholders, and an international community. Developed and launched the company's website, connecting organizational priorities with a clearer public-facing digital presence.

PINNACLE AI / CO-OWNER & PROJECT MANAGER / MAY 2024 - APR 2026

Delivery and systems, built together.

Held a 25% ownership stake while managing agency-side delivery across RIDE, beU delivery, and Solar 23. Coordinated cross-functional work across design, engineering, and strategy as the team grew to a peak of 20 members. Co-developed and deployed 2-3 inventory and stock management systems for product importers and distributors using Next.js, React, TypeScript, and Supabase. Supported B2B marketing campaigns through HubSpot.

EAGLE POINT AI / PROJECT MANAGER / JAN 2024 - JUN 2026

AI operations with product thinking.

Directed dataset collection operations and intake analysis for incoming client projects, defining delivery scope at kickoff. Co-developed Akilla, an internal workflow monitoring tool, contributing to product design and code before helping deploy it for real-time project and performance visibility. Supported adoption of the system across an operations team that scaled to around 40 employees.

FUTURE QUEST / HEADWAY / PRODUCT PROJECT LEAD / 2022 - 2024

A digital product that opened access.

Led development from 2022 through the 2024 launch of a remote scholarship and opportunity platform. The product helps students find suitable opportunities, review resources, and apply without travelling to the office. It now serves 2,000+ students across 30+ countries, with \$4.2M+ in scholarships secured and a 96% visa success rate.

CONTENT, COMMUNICATION, AND AUDIENCE WORK

BANA RECORDS / HEAD OF CONTENT & COMMUNICATIONS / 2023 - 2024

Build the story and the system around it.

Rebuilt the label's content pipeline with Kanban workflows, release schedules, quality gates, and approval flows. Directed a creative team of 3 and owned content OKRs covering stream targets, release frequency, and audience growth. In 2025, independently produced and edited Beyond the Beat: The Bana Records Music Camp and contributed to three additional productions.

CARLOS THORNTEN SPORTS ENRICHMENT CENTER / SPECIAL PROJECT MANAGER / 2022 - 2024

Communicate with stakeholders who need clarity.

Closed 5 institutional partnerships with schools, embassies, and NBA Africa, securing full funding for youth programs. Produced and directed the 18-minute 20 Years of Excellence documentary presented at the U.S. Embassy in Addis Ababa to NBA Africa, the Ethiopian Sports Federation, and FIBA.

FRAME BY FRAME / WEBSITE DESIGN & DEVELOPMENT / 2026

Website delivery from brief to launch.

Designed and deployed a complete website for a media production company, managing the work end to end from build through launch. The site sustained 40-80 visits per month after launch, with client feedback specifically praising ease of navigation and usability.

TOOLKIT

Product and B2B: product positioning support, technical storytelling, value propositions, campaign planning, content development, HubSpot outreach, stakeholder enablement

Technology: AI operations, dataset preparation, internal tooling, Next.js, React, TypeScript, Supabase, website design and deployment
